Numerous international exhibitions at home and abroad. Works in private collections. Studio in Kassel and Konstanz, Germany. Graduate artist, Freie Kunstakademie Überlingen, Diploma in communication management BAW Munich-Germany.

Current work often focuses on people as an expression of human qualities, often in interaction with nature, in which the characters seek an inner place in our diverse world. With their deliberately strong colors and the strong contrasts of light and shadow, a mysterious atmosphere is created that gives the viewer space to discover the picture and themselves.
